Quantity

Modifications

1

Company & Contact

COMPANY NAME

CONTACT PERSON

EMAIL

COUNTRY / REGION

2

Peptide Identity

Provide one sequence or product per checklist whenever possible.

PEPTIDE NAME OR CATALOG REFERENCE

AMINO ACID SEQUENCE

Use one-letter or three-letter amino acid notation.

N-TERMINAL MODIFICATION

Example: Acetyl, Biotin, FITC

C-TERMINAL MODIFICATION

Example: Amide, Free acid

3

Quantity & Purity

REQUIRED QUANTITY

Include unit: mg, g or batch volume

TARGET PURITY

Example: >=95%, >=98%, >=99%

4

Technical Requirements

- | | | |
|---|---|---|
| ☐ Linear peptide | ☐ Cyclic peptide | ☐ Conjugated peptide |
| ☐ TFA salt | ☐ Acetate salt | ☐ Other counterion |

SPECIAL MODIFICATION OR PROCESS NOTES

Examples: phosphorylation, labeling, lipidation, disulfide bridge, non-natural amino acid

5

Analytical Documents

- | | | |
|--|--|--|
| ☐ HPLC chromatogram | ☐ Mass spectrum | ☐ Certificate of Analysis |
| ☐ Water content | ☐ Peptide content | ☐ Additional testing |

6

Packaging & Delivery

PACK SIZE / ALIQUOT PREFERENCE

PREFERRED DELIVERY DATE

SHIPPING DESTINATION

STORAGE OR HANDLING NOTES

7

Before You Submit

Confirm sequence, quantity, purity, documents and delivery details.
